

Leamington C & AC Hillclimb Champs on 24 September 17, course:KH6

OK, hands up who predicted that nothing would change after the Hillclimb? That's what's happened, apart from the top 4 places scoring extra points. Paul is the Champion once again, a fairly common occurrence with this series, if you look back over the years. John will be coming back next year to try again, and Tony will regret not riding the 15 earlier in the season. Meanwhile, Roger has enjoyed the best results since 2013 in the Vaughan when he finished second. Once again the Champion showed that it is essential to ride every event to score highest.

Note - This chart does not display the decimals as in the actual results, I have rounded to the nearest second up or down, like what I did at school.

		Result	3 yrs PB *	Diff +/-	Points
